FB @SWTherapyRehab

I work extensively with professionals, i.e., doctors, lawyers, adjusters, Intel and Facebook as a massage therapist. My goal is to help therapists avoid the costly time-consuming mistakes I made early in my career. My passion is to increase income for massage therapists, thus this incredible course!

Auto Insurance Medical Billing & Working with Lawyers - 8 CEU

Always have continuous income!!

My personal story of keeping income during Covid-19: Right before Covid-19, March 15, a client settled an auto case and a check for \$8000.00 came in. Covid-19 hits and lockdown continues for months. May 25, another client settled an auto case and I received another check for \$8160.00. The method I use with clients, lawyers and auto adjusters works.

According to the auto insurance industry experts, the average driver will be in 4 car accidents over the course of their lifetime. Oct. 11, 2019 data

Course Description & Goals

*** Must have a current Massage Therapy License***
